

Taizhou Fengye Metal Products to Exhibit at Big 5 Global 2026 in Dubai

Dubai, UAE — Taizhou Fengye Metal Products Co., Ltd., a China-based manufacturer of stainless steel fasteners and curtain wall accessories with over 20 years of industry experience, has confirmed its participation in **Big 5 Global 2026**, the 47th edition of the Middle East's leading construction and urban development exhibition. The event will take place from **23 to 26 November 2026** at the **Dubai World Trade Centre**.

The company will showcase its latest range of corrosion-resistant fastening solutions at **Booth Ar D195, located in the Trade Centre Arena**. Visitors and industry partners are invited to explore Fengye's product portfolio, which is engineered for demanding construction, solar, and architectural applications across the Middle East and beyond.

Meeting the Middle East Market

The Middle East represents a strategically significant market for Fengye, with the region already accounting for 20% of the company's total revenue . As construction and renewable energy projects continue to expand across the Gulf, the demand for durable, corrosion-resistant fastening solutions has grown accordingly.

"Big 5 Global provides an ideal platform to connect directly with contractors, engineers, and distributors who require fasteners capable of withstanding the region's harsh environmental conditions," said a representative from Fengye's international trade department. "Our stainless steel products are specifically

suited for coastal and high-humidity applications where standard fasteners would quickly degrade.”
